Explore Student Club Opportunities!

Nearly 1,000 of our students and staff members proudly participate in these organizations. Student clubs are unique because the activities and competitions relate directly to what students are taught in their programs here at the Career Center. Students are able to further develop technical skills and build leadership qualities as they compete with their peers in the district, regional, state and national level.

Placement Services

Placement Specialists assist students and graduates with employment through school-to-work transition programs and job development. In order to accomplish this goal, a close working relationship must be maintained with business and industry in Bay, Arenac, and surrounding counties. Students have the opportunity to experience unique job related situations through these partnerships. Please stop by and see us in the front foyer.

Counseling Services

The Counseling Program is designed to contribute to the overall success of student learning. Three licensed professional counselors assist students with academic support, career development and post-secondary planning, responsive services, and self-awareness and personal skill development. Please stop by the Counseling Center to find out more.

Academic/Disability Services

Our Teacher Consultant will be on hand to answer questions and offer resources to parents of students that have disabilities and/or may be struggling with their Career Center program. In addition, if your child has any other type of special need, such as medical condition, please feel free to stop by the front foyer.
