

Bay-Arenac ISD

Mathematics Curriculum Revision 2006

Vision Statement

The students within the Bay-Arenac Intermediate School District will value and apply mathematics successfully in a changing world.

Belief Statements

We believe that Bay-Arenac ISD students should:

- Communicate mathematically in written, spoken, and visual form.
- Demonstrate competency in the fundamentals of mathematics.
- Integrate technology to enhance mathematical skills.
- Reason and think critically to find solutions to problems.
- See the connection between mathematics and other content areas and relate mathematical concepts to life experiences.
- Develop a positive attitude toward mathematics.
- Provide evidence of mathematical achievement through ongoing assessment that will drive instruction.
