# BAISD WHOLE CHILD NETWORK

Register Now!

BAISD invites Social Workers, Counselors, MTSS/ Student Service Workers, Behavior Specialists, and other school personnel supporting student behavior and social emotional well-being to attend this collaborative network to improve our systems of support for students.

All educators want to improve the work they do for students, their families, and the community. Whether it's instruction, behavior, school climate, leadership, family engagement, or any of the other issues schools face on a daily basis, all educators need tools to help them improve their actions and methods. A whole child approach, which ensures that each student is healthy, safe, engaged, supported, and challenged, sets the standard for comprehensive, sustainable school improvement and provides for long-term student success.
