

# Introduction to Project Based Learning

**Register Now!**

**AUDIENCE:** K-12 educators

**OUTCOME:** Teachers leave with a ready-to-use project or PBL lesson and tools to support student thinking, engagement, and career connections.

Looking for ways to increase student engagement and make learning more meaningful? This three-session professional learning series introduces educators to 3P Learning (Project-, Place-, and Problem-Based Learning) and supports teachers in designing real-world, standards-aligned learning experiences for their classrooms.

Participants will explore local examples, learn practical design strategies, and create either a short PBL "sprint" (1-5 days) or a longer project they can implement with students. No prior PBL experience is required.

## WHEN

**January 27, 2026**

8:30 am - 3:00 pm

**March 5, 2026**

8:30 am - 3:00 pm
